

JC CHANG

626-400-8170 | jerryjcchang@gmail.com |  [jerryjcchang](#) | jcchang.dev

Front-end web developer seeking a socially responsible organization with a shared passion for creating change through code that will leverage and expand my skills as a self-driven problem solver and effective communicator to help make lasting, positive social impact with cutting edge technology.

TECHNICAL PROJECTS

[SpaceShare](#) (u: demo@spaceshare.com, p: [demo](#)) - [Frontend](#) | [Backend](#)

CoWorking Space webapp built around concept of AirBnb for offices.

- + Full stack single page webapp built with Ruby on Rails PostgreSQL backend with React-Redux frontend
- + Interacts with CoWorking Map API for backend database
- + Utilized moment.js and semantic-ui-react-calendar libraries for date-time input and formatting
- + Styled with Semantic-UI-React

[Avengers Assembler](#) - [Frontend](#) | [Backend](#)

Single player online game based on Marvel's Avengers franchise.

- + Full stack single page webapp built with Ruby on Rails backend with React frontend
- + Implemented React-Beautiful-DND library for streamlined drag-and-drop of in-game units
- + Fully styled with custom CSS, no UI design libraries used.

[Flatiron LearnTube](#) (username1: student | username2: instructor) - [Frontend](#) | [Backend](#)

Student learning tool collecting recorded in-class lectures allowing Flatiron students to make notes while reviewing past lectures.

- + Implemented Youtube API to directly stream lecture videos
- + Uses Rails PostgreSQL backend with javascript frontend
- + Deployed on herokuapp and github pages and was utilized by classmates during program
- + Styled with Bootstrap front-end framework
